Bits & Giggles

Education is not the filling of a pail,

but the lighting of a fire.

—William Butler Yeats

Is Windows Updated?

If you see the screenshot below, your Windows is updated.

Windows Update

❌ Something went wrong. Try to reopen Settings later.

Spam/Phishing

If you receive an email that is not from someone in our district, and it has a link or attachments, don't open or click it. You can always double check with IT about or just delete it.

Dell Command Updates

To keep your device running at its best, please make it a priority to check for Dell Command Updates. Just type 'Dell Command Updates' into your search bar and follow the prompts. Once the updates are finished, a quick restart is required to lock those improvements in—thanks for helping us keep our tech secure!

Turning off Devices VS Restarting Device

Did you know that certain system updates can only install during a restart? Simply closing your laptop or hitting 'shutdown' won't do the trick. To prevent glitches with your audio and other features, please make it a rule to restart your device at least once a week. It's a small step that makes a huge difference in performance.
